Brief Summary

The apartments are located along Holland Rd where the bridge abutment will be constructed as a first order of work. The PR team was invited to host a table at the Cantabria Apartments Holiday event to provide a one-on-one meeting experience for the residents. We set up a table with project factsheets, poster board factsheet, sign in sheets, City labeled waters and holiday treats. The residents approached the table, we provided them with a brief of the project, they asked questions, we answered their questions and they signed up to receive for our weekly project texts/emails. Overall, the residents were excited to welcome the new bridge.
